

DPT-140 roller type blister packing machine

Tinyard Enterprise Co., Limited is one of the top level China blister packing machine manufacturers and suppliers, welcome to wholesale blister packing machine from our factory.

DPT-140 roller type blister packing machine

The machine is suitable for packing various drugs such as tablets, sugar-coated tablets, capsules, gummy pills as well as electronic components and small hardware. It is auto aluminum-plastic packing equipment which is on the basis of the Japanese model HM-225 machine and has been designed and improved many times for many years. The efficiency of this machine is 20% higher and the performance is better than any other brand of the same model.

Main Specifications:

Non-Poisonous PVC	Thickness 0.25×Width125 ~ 140 (mm)
Aluminium Foil PTP	Thickness 0.02×Width125 ~ 140 (mm)
PVC&PTP	OD of Reel\varnothing350/200
	Dia of Reel Core: \varnothing 70 ~ 80 (mm)
Size of Finished Product	56×81.6 mm
Printing Plate Dia	\varnothing 78 mm
Punching Speed (3Gears)	33、27、24 (time/min)
Packing Efficiency	5~14.52 Thousand pcs/h
Total Installed Power	4.6 Kw.380v.50Hz.3 Phases and 4Wies
Overall Dimensions	1.9(L)×0.76(W)×1.4(H)(Coblc Meter)
Weight	700Kg
