

Automatic Horizontal Flow Wrapping Machine HMPL-HFW

Brief On Machine

The Horizontal Flow Wrapping Machine manufactured by Harikrushna Machinetech is in compliance with set international quality standards using supreme quality components under the observation of our experienced professionals. The provided machine is used for packaging of various products like biscuits, candies, wafers, chocolate, soaps and irregular shaped products items.

Salient Features of Automatic Horizontal Flow Wrapping Machine

The unit is made compact & versatile as per GMP norms.	The structure is made of MS and cladding with SS304 sheet.
The contact parts are made of SS304.	Rigid vibration free construction, noiseless for trouble free performance.
Design registration with reverse forward photocell.	IPD controller provided.
All the Bearings are makes of SKF OR NTN.	Cross sealing heaters operate on 220 volt.
Conveyor made of specialized positive pusher on chain. In feed conveyor 2 meter long for easy feed of our product.	MAIN ON/OFF SWITCH: This is a switch to switch ON/OFF power to the machine.
EMERGENCY SWITCH: This is a push button to stop the machine immediately.	All Electrical Components are ISI Marks.
EMERGENCY SWITCH: This is a push button to stop the machine immediately.	All Electrical Components are ISI Marks.
Gear & sockets EN-8.	Tower light.
Paper Drive.	

Technical Specification

Model	HMPL-HFW
Suitable for	I. V. Bottles
Product Size	100 ml, 500 ml & 1000 ml Bottles
Packing Material	Heat Sealable Laminated Film 22 to 25 micron thick
Output Speed	Up to 120 Bottles/Minute
Power Load	2 KW
Power Supply	3 HP/Three Phase/ 415V AC/ 50 Hz
Machine Dimension	3990 mm L x 1100 mm W x 1950mm H Approx.
Machine Net Weight	750 Kg. Approx.
