

HM MX-B series Single-arm Bin Blender

Usage: mix dry powder or granule materials

Working principle: single arm clamp bin, lift, and mix by overturn up and down, then drop bin

Evenness of mixing: 99%

Charge coefficient: 50-80%

Model: HM MX-B400/600/800/1000/1200

Volume of mixing barrel: 400/600/800/1000/1200L

Charge-in time: 15-30minute

Mixing time: 15-40 minute (average 25 minute)

HM MX-BD series Double-arms Bin Blender

Usage: mix dry powder or granule materials

Working principle: double arms clamp bin, lift, and mix by overturn up and down, then drop bin

Evenness of mixing: 99%

Charge coefficient: 50-80%

Model: HM MX-BD400/600/800/1000/1200/1500/1800/2000

Volume of mixing barrel: 400/600/800/1000/1200/1500/1800/2000L

Charge-in time: 15-30minute

Mixing time: 15-40minute (average 25 minute)
