

Auto Sleeving Machine **DSK-2B**

MACHINE FEATURES

- 1.Cutter plate and drive are using Yasukawa drive system and server motor for motion with stable and accurately.
- 2.Machine design can fit the bottle diameter from 135mm to 210mm.
- 3.Dual drive design for motion with stable and accurately.
- 4.Cutter plate is driven by gear for longer using and perfect cuts.
- 5.Drive and front/ rear blocking use linkage arrangement to make the position of mandrel more accurate.
- 6.Feeding roller with cam design to reduce the time of sleeve installation.
- 7.Seven inches HMI touch screen has highly sensitive operation by collocate with High Performance motion control system to make the operation more convenient.
- 8.Sensors are using SICK grade for motion of sleeve more stable and accurate.

Specification

Max speed	150BPM。
Bottle Diameters	φ200mm 以下
Film Material	PVC / PET。
Film Width	PVC: 0.04mm~0.05mm。
Machine Size	1100mm*1180mm*2000mm(L*W*H)。
Voltage	Power source:3P;220V (Choose one from the given selection)。
