

## WYG-8 Automatic Linear Filling Machine

### Suitable material:

1. It is applicable for packing foodstuff, drinking, dally chemical industry, medicine, oil industry with different viscosity, water aqua, grease, fruit juice etc

### Characteristic:

1. Appalled high liquid level isobaric flow filling.
2. It can fill kinds of PET bottles and glass bottles
3. Large filling quantity and filling scope
4. The time, speed adjustment and automatic full flow are finished by PLC system.
5. In the filling nozzle is an anti-leaking device. The body and parts touching the raw materials are made os stainless steel.

### Technical specifications:

Type	WYG-8	WYG-12	WYG-16
Filling capacity	150-1500 ml	150-1500 ml	150-1500 ml
Filling speed	1500-5000 bottle/min	2250-7500 bottle/min	3000-10000 bottle/min
Bottle diameter	30-100 mm	30-100 mm	30-100 mm
Bottle height	80-340 mm	80-340 mm	80-340 mm
Power	0.7 kw	0.7 kw	0.7 kw
Air power	0.6Mpa	0.6Mpa	0.6Mpa
Air consumption	200 L/MIN	300 L/MIN	400 L/MIN
Overall dimension	1800×1070×1980mm	1970×1070×1980mm	2140×1070×1980mm
Weight	250kg	300kg	350kg
