Hologram Sticker Labelling Machine SBLABEL-03/04

Automatic Hologram Sticker Labelling Machine is suitable for applying Hologram Sticker Labels on Various types of Label and Film Roll used in Packaging Industries. It is capable of Labelling up to 300 Hologram per minute depending on Length and Hologram size.

Hologram Applicator is fully synchronized with all operations including Product Feeder, Roll Winder and Label Dispensing for optimum Labelling accuracy; it also helps to change the Labelling speed online with the help of Single Speed Pot provided on control panel.

Hologram Applicator is available with unique single point synchronised speed control system. The Inbuilt Automated Label Length detection systems eliminates any need for manually feeding and storing of Label Length data in memory and retrieving the same every time for change of Label Size & re-starting the machine.

Applicator is fully synchronized with all operations including Product Feeder, Roll Winder and Label Dispensing for optimum Labelling accuracy; it also helps to change the Labelling speed online with the help of Single Speed Pot provided on control panel.

Label applicators are available with unique single point synchronized speed control system. The Inbuilt Automated Label Length detection systems eliminates any need for manually feeding and storing of Label Length data in memory and retrieving the same every time for change of Label Size & re-starting the machine.

Features

- User friendly machine
- Micro-controller based controller along with programmable feather touch keyboard and LCD Display.
- On line 5-digit counter display, to know the output (total production).
- Micro-controller based fiber optic product sensor.
- Label release & fixing mechanism to release the label.

- Different types of coding devices are available for over-imprinting as per customer requirement, which prints messages such as Mfg. Lic. No., Batch No. , Mfg. Date, Exp. Date, Price etc.
- In feed & out feed of products which is to be labeled can be feed by manually or from any product transmission system.
- Label dispensing unit with vertical and horizontal adjustable mechanism.
- Proper fixing of label.
- "No Product No Labeling".
- Accuracy + 1 mm.
- Stepper / Digital Servo technology.
- Supply: 230 Volt Ac / 50 Hz.

Label Applicator is useful to label on

- Ampoules
- Vials
- Glass Bottles
- Pet Bottles
- Tins
- Pouches
- Cassettes
- Floppy Disk
- Square Box
- Containers
- Syringes and many more products

Label Applicator: Application

Label Applicator are used in various industries such as

- Food and Beverages
- Pharmaceuticals
- Cosmetics
- Personal Care Products
- Electronics
- Health Care
- Agriculture
- Pesticides
- FMCG
- Distribution, logistics, handling

Technical Parameter:

Model:	SBLABEL-03	SBLABEL-04
Label Size:	Width 8~50mm	Width 10~60mm
Labeling Speed:	Up to 120 Product Per Minute	Up to 300 Product Per Minute
Labeling Precision:	+ -1.0mm	+ -1.0mm
Power Supply:	110V/220V 50/60HZ	110V/220V 50/60HZ
Roll inter:	Φ75mm	Φ75mm
Roll Outer:	≤Φ300mm	≤Φ300mm
