

HR11-15 Fully Automatic Rotary Hot Melt Roll Fed Labeling Machine

Features:

This machine is fully automatic rotary hot melt roll fed labeling machine. Used for mineral water, soft drink, seasoning, wine, cosmetics and so on. It has the advantages of using less glue, low consumption, sticking long label, high labeling accuracy, and high speed of labeling and so on. It suits for the company of large production. Now, it has been the best way to replace sleeve labeling machine and realized the purpose of environment protection.

Main parameters:

Model: HR11-15
Glue way: Roll
Way of label: Curl label
Capacity: 24000 bottles/hour
Main motor power: 4Kw/380v/50Hz
Compressed air flow: 0.06m³/min
Compressed air pressure: 0.7-0.8Mpa
Suitable for bottle type: ϕ 50-120, H=140-320
Length of label: 180-310mm
Dimensions: 2320*2285*2150(mm)
Weight: about 4800kg
