

Heat Sealer Shrink Packaging Machine SBM-400SM/SBM-4525B

The L-type sealing shrink packaging machine is suitable for electrical products, hardwires, software's, food, printing products, medications, floor boards, ceramics etc. Adopts famous brand imported components which makes the machine more stable and with longer service life.

Got favorable feedbacks from lots of customers, such as: ABB, SHIHLIN, ANNOR PASTIN, etc.

The features of PE, PVC, POF film L-bar heat sealing shrink packaging machine

1. Full closed packing. Firstly cutting and sealing, secondly delivering into shrinking tunnel to be shrank.
2. Easy to operate. After putting the products on the conveyor the machine automatically delivering film, bag-wrapping, cutting and sealing, shrinking.
3. Photoelectric sensor is used. Adjust the sensor according to the thickness of the products.
4. The temperature of the sealing knife is adjustable. The operator can adjust it according to the material of film.
5. The temperature in shrinking tunnel is adjustable. Hot wind system is used in shirking process. It makes the shrinking effect better and more beautiful.
6. Widely used in medicine, stationery, hardware tools, food, toys, cosmetic, electronic products, etc.

Technical Info

Model No.	SBM-400SM(sealing machine)	SBM-4525B (shrinking machine)
Power	380v, max 1.5kw (depends on customer's requirement)	380v, max 9kw (depends on customer's requirement)
Shrinking Speed	20 to 25 per minute	20 to 25 per minute
Film Material	POF, PE	POF, PVC, PP, PE
The max shrinking size	L400 x W300 x H120mm	(Tunnel size)L600 x W450 x H150mm
Machine Dimension	L1500 x W650 x H1350 mm	L1500 x W650 x H1350 mm
