

Carton Box Labeling Machine

The basic purpose

For flat labeling on unfolded large cardboard box, one-time paste multiple tabs, each labeling head can work independently, automatic product automatically collects products.

Optional line inkjet printer, realized before and after labeling printing product labeling information on the product.

Multi-header can be customized carton labeling machine.

During operation

Release → Product delivery points from → product labeling and product testing → mark → Receipts cover.

Scope

- Applicable Label: Label, sticker film, electronic monitoring code, bar code, sponges and other standard.
- Application: labeling objects in the plane.
- By Industry: Widely used in pharmaceutical, food, cosmetic and other industries.
- Application examples: carton labeling, sheet metal labeling, box labeling, folder joints such as labeling.

Features

- * Widening transportation, suitable for large-size flat products labeling.
- * Automatic product, the product automatically collects real automatic integration.
- * Can be connected to the pipeline labeling.
- * Coding equipment can be installed to achieve synchronous printing production date and relevant information.

Technical Parameters

Labeling Products	W: 60-1000MM L: 60-1000MM (Can be customized)
The maximum width of the label	150mm (Can be customized according to the product)
Labeling speed	301-00 Pieces / min (with materials and label size)
Stickers bottle accuracy	±1mm
power supply	220V 50~60Hz power: 900W
Dimensions	(L) 2900mm× (W) 1300× (H) 1500mm
