

Ultrasonic Sealing Packaging Machine XY-60A

The machine is for medicine, chemical products, loose, non-sticky, fine granular or fine powder automatic packaging materials: such as activated carbon, charcoal, herbal granules, granular drugs, herbal powder.

Main features for the ultrasonic sealing packaging machine:

1. The packing machine is suitable for pharmaceutical, food, cosmetic, pesticides, plastics and special industry and other products in the loose, non-sticky, granular materials, automatic packaging, such as the powder, feed, charcoal, tea, activated carbon, detergent, desiccant.
2. The machine is suitable desiccant bags in, the feeding hopper, sub-feeder, automatic cold seal off part of the control box combined into a whole appearance of the machine is generally as shown, easy operation, good quality, safe and durable.
3. Chinese display control system, simply set the unit to display the desired setting parameters (filling amount and length of bag) control system will automatically optimize and match the actions, thus achieving best packaging speed.
4. The machine is good electronic color control systems, automatic packaging film accurately track the cursor, so to get the full bags beautiful icon.
5. The installation of control in gear cutter function, you can select one of the feed bags or bags off, automatic packaging machine can automate the packaging process measuring, bag making, filling, sealing, cutting, counting, printing word and all jobs .
6. The machine is using the stepper motor control, the system has high accuracy, and without having to adjust other parts may change the length of the bag.
7. The machine's wrapping part of the weight of the platen feed motor structure, doubling the length of wrapping paper, bag nice smooth edges.
8. The sealing form of ultrasonic cold seal, suitable for non-woven packaging materials, sealing tidy perfect firm.

Optional function devices:

1. Hole punch device
2. Tear notch device
3. Linking bag control device
4. Air exhaust device
5. Nitrogen inflation device
6. Triangle package

Technology Parameter:

Model	XY-60A
Capacity	30-60bags/min
Packing range	3-200g/bag
Bag size	(L)30-190mm (W)30-140mm
Sealing type	3 sides seal
Power	1.9KW
Machine weight	400kg
Voltage	220V/50HZ
Packing material	Non-woven
