

Flex-Pac™

LABELER

A proven labeler that pays for itself.

The EPI Flex-Pac family of labelers easily integrates with a variety of packaging machines including, VFFS, HFFS, horizontal flow wrappers and stretch wrappers. We take the time to engineer mounting systems that fit your individual F/F/S to ensure that the label is applied at the correct spot, thus ensuring a reliably placed label on every package. Labels are applied accurately to the front or back of your packages at rates that match today's high speed bag-makers and wrappers. And don't worry about maintenance; the Flex-Pac Labeler is built using sealed mechanical drives and corrosion resistant materials. We make the Flex-Pac Labeler easy to use and built to last!

COMPATIBILITY

Mounting kits available to fit vertical form-fill-seal equipment manufactured by:

- Bosch
- Key-Pac
- Triangle
- Fres-Co
- Masipack
- Universal
- Hayssen
- Matrix
- Viking Masek
- ICA
- Rovema
- Woodman
- Ilapak
- Sandiacre
- Wright
- Ishida
- TNA
- Many More

FLEX-PAC™ LABELER

TYPICAL PRODUCT SPECS

Label Size: 1"x1" to 6"x6".

Smaller/larger size optional

Label Supply: 12" OD on a 3" Core

Electrical: 2A @ 120VAC, 60HZ

Pneumatic: 2 SCFM, 80 PSI

Signal Interface: A "GO" signal from V/F/F/S machine signals the labeler to apply the label to the package

Measurements in inches.

WHY EPI?

For over 35 years EPI Labelers have been designed and engineered for reliability and ease of use. We take the time to understand each application and listen to our customers needs. Let us show you how precise thinking and simple design can help you.

RELIABLE

EPI Labelers are built to stand up to the daily use and harsh environments that come with the territory. Enclosed direct drive technology along with corrosion resistant material allows our labelers to work in dusty, wet and cold packaging operations with a minimum amount of maintenance required. Your operators and mechanics will appreciate EPI Labelers ease of set up and use.

VERSATILE

Sure, EPI Labelers are easy to set up and operate, but the versatility that is engineered into all our equipment allows you to use our labelers in a variety of applications. Whether your job calls for a non-contact vacuum/blow, tamp or two panel application we can configure our labelers to meet your needs.

QUICK AND EASY SETUP

Our customers tell us that EPI Labelers give them the ease of use that they have not experienced with other labeler equipment. The cantilevered design lends itself to easy threading and the simple mechanical adjustments needed to change label size make EPI Labelers a favorite of mechanics and operators everywhere.
