

Continuous Pouch Sealing Machine

Band sealers are suitable for sealing individual pouches/bags automatically. The machine has a variable temperature controller and speed control, to suit different grades of plastic materials. Three types of models are available: Horizontal type, Vertical type with foot stand type. Other special models include Nitrogen filling attachment, vacuum option, Printing attachment, and for heavy bags sealing.

Technical Specification:

Voltage (V/Hz)	230v/50Hz
Power	650W
Sealing Speed (m/min)	0-12 (0-16)
Sealing width	8-10
Temperature range	0-300
Film Thickness (mm)	0.08
Overall Conveyor (LxWxH (mm))	840x380x320
Net Weight (Kgs)	32
