Fully Automatic Carton Sealing Machine

Fully automatic carton sealing machine mainly cooperates with the automatic production line, automatically folds the top cover, and the side belt drives the upper and lower seals. By adjusting the height and width of the machine, it can handle different sizes of cartons.

Fully automatic carton sealing machine is economical and easy to adjust. It can complete the upper and lower sealing operations at one time, and can be used in stand-alone operation or in conjunction with the assembly line.

Features:

1. This sealing machine is a car carton sealing machine, and the operation line looks like a "one" type.
2. Automatic folding of the carton cover, automatic labeling up and down, fast, smooth and beautiful.
3. A blade guard is provided to prevent accidental operation from being stabbed.
4. Make sure the connection is better than manual work, faster and more efficient.
5. Advanced pneumatic control system compared to complex electrical control systems.

Application:

Widely used in household appliances, textiles, food, department stores, pharmaceuticals, chemicals and other industries. The use of printing tape can enhance the image of the product.

Products Details:

Product Name	Fully Automatic Carton Sealing Machine
Packing speed	1000-1500pcs/h
Max. Packing size	L600×W500×H500mm
Min. Packing size	L200×W150×H130mm
Applicable tape	48mm, 60mm, 75mm (Choose one type)
Power	400W
Power supply	110V, 220-240V, 50/60Hz, 1Phase
Machine size	L1770×W850×H1520mm
Machine weight	250kg
Roller	stainless steel type
Tape width	2 inch and 3 inch available
Color	white and yellow; red and white
Packing	sea export wood case
Folding type	by pneumatic cylinder
Driven type	side belts driven
