

BSGSEGX-30 Rotary Capping Machine for 5ml Filling Sealing

The capping machine is also called pressure machine, sealing machine or clock machine, and its main use is plastic bottles and glass bottles. Here is one of cosmetic line, professional automatic essential oil filling and capping machine mainly includes various essential oils, nail polishes, perfumes, makeup removers, etc., using PLC touch screen to control the peristaltic pump filling, with high filling accuracy, with automatic cleaning function, filling, The upper plug, the upper cover, and the cap screwing are all completed in the imported cam divider, with high precision, stable operation, reasonable design, easy operation and maintenance, and fully meet the requirements of the new version of GMP.

Technical Parameters:

Model	BSGSEGX-30
Main power	2kw
Precision	≥99%
capacity	30-40pcs/min or 60-80pcs/min (depending on bottle and caps)
Working voltage	AC220V/110V 50-60HZ
Dimension	2000x1250x1600mm
Weight	550kg
