

Automatic Single Head Spice Powder Packaging Filling Machine SGGX-50

Equipment Introduction:

This machine is based on the introduction and absorption of foreign advanced technology, by our company independent research and development of a professional for xilin bottle filling, capping, winding (rolling) machine.

This machine adopts Japan imported high precision closed CAM indexing station, high precision, reliable operation, long service life. The indexer has simple structure and no need of maintenance for long-term use.

This machine is mainly used for filling, plugging and capping all kinds of powder, such as penicillin powder, collagen powder, boron powder, pesticide powder, pepper powder and so on.

Widely used in food, pharmaceutical, chemical industry and scientific research fields.

This machine can not only single production, but also with the bottle washing machine, dryer and other equipment to form a linkage production line. Fully comply with national GMP requirements.

Features:

1. Man-machine interface setting, intuitive and convenient operation, PLC control, accurate loading.
2. Frequency conversion control, production speed arbitrary adjustment, automatic counting.
3. Automatic stop function, no bottle no filling.
4. Disc positioning filling, stable and reliable.
5. High precision CAM indexing meter control, accurate positioning.
6. Made of SUS304 and 316L stainless steel, fully meet the requirements of GMP.

Technical Parameters:

Model	YFGX-50
Capacity Range	1-500g
Loading Error	$\leq \pm 1\%$
Turn (roll) Cover Pass Rate	$\geq 99\%$
The Production Capacity	20-30BPM
Filling Metering Screw Filling	Metering Screw Filling
Voltage	380V/50Hz
Power	2.0 kw
N.G	700 kg
Dimensions	2000*1000*1800mm
