

## *XHL-AGF/8 Automatic Gravity Liquid Filling Machine*

AGF automatic gravity liquid filling machine adopts logic controller PLC, 6" LCD touch screen system, ordinary pressure flow passage parameters, set the flowing time to control different quantity. It applies to pharmaceutical, foodstuff, pesticide, chemical, etc.

### **Characteristic**

- Man-machine English-Chinese interface, intelligent touch screen, human design, easy operation.
- Imported filling valve, avoiding drop leaking, accurate filling quantity.
- Program logic controller (PLC), easy for changing size or modifying parameters.
- Pneumatic elements are all imported, stability and reliability.
- Accurate liquid sensing, automatically adding liquid, ordinary pressure flow passage parameters.
- Solely and specially-designed whole lifting device, easy governing to meet the needs of all kinds of container packing
- Photo-electric sensing and pneumatic linking control, automatic protection for shortage of bottles.
- Pneumatic executive control valve, high efficiency and safety. Each flow passage can be separately governed and cleaned.
- Close positioning design, easy governing, suitable for packing of all sizes of bottle
- The whole machine is designed according to requirements of GMP.

**Technical Parameters:**

<b>Model</b>	<b>AGF/8</b>
Filling nozzles	8
Filling range	50-5000ml
Production Capacity	40-60pbm
Filling precision	$\leq\pm 2\%$
Single machine noise	$\leq 50\text{dB}$
Air pressure range	0.4-0.6Mpa
Power source	220v 50Hz
Power consumption	0.5KW
