

Stretch-Banding Machine LY-K Series

The Stretch-Banding Machine is an End-of-Line Packaging Machine. It can group together or stack cartons (or similar shaped objects) to form larger units. These are then tightly wrapped in plastic film. Compared with shrink-wrapper and overwrapper, this machine is energy-saving as it does not require heating up. It saves 50% of film materials because it partially covers the packaging. It can be connected to a packaging line with Blister Machines, Cartoners and Case Packers.

Main Technical Parameters:

Model	LY-K180	LY-K260	LY-K280	LY-K380	LY-K400	LY-K500
Output	15bundles/min.	20bundles/min.	25bundles/min.	20bundles/min.	30bundles/min.	35bundles/min.
Max. Packaging Size (L*W*H) mm	200×130×280	200×130×280	280×200×130	380×200×120	200×150×250	280×200×100
Min. Packaging Size (L*W*H) mm	50×50×30	50×50×30	50×50×30	80×50×30	60×50×40	80×20×40
Machine Power	0.5kw	0.5kw	0.5kw	0.6kw	0.7kw	1kw
Air pressure (Mpa)	0.5-0.6	0.5-0.6	0.5-0.6	0.5-0.6	0.6-0.8	0.6~0.8
Machine Dimension (mm)	1600×600×1500	1600×600×1500	2200×600×1500	2350×600×1500	2880×800×1600	2600×845×1825
Machine Weight	300kg	300kg	350kg	400kg	600kg	800kg
