

Automatic Continuous Side Sealing Machine ZF-BS500-Z

Sealing Machine ZF-BS500-Z provides customers with fast packaging solutions, with a packaging speed of 80-120 packages per minute. It can meet different specifications of products and packaging mode, the conversion process is convenient and fast. Excellent in flexibility and stability, the edge sealing machine is especially suitable for customers who need to deal with different types of products frequently.

Features:

1. Can choose different feeding systems according to production needs
2. The conveyor belt can be easily connected to the existing production line
3. Finger-push conveyor belt is mainly used for packaging and printing products, and it can be equipped with automatic paper feeding machine according to the needs of customers

Specification

Model:	ZF-BS500-Z
Machine size L*W*H(mm):	6180*1675*1360
Sealing blade size L(mm):	530
Product size range L*W*H(mm):	(100-500)*(60-400)*(5-220)
Power supply:	1P/220V/50HZ/4KW
Net weight:	1850KG
