

## CH-4WAY Air Heaters Shrink Machine

- Suitable for biotech beauty factories, such as masks, lotions, high-priced skin care products that cannot be heated.
- After packaging, the product will not be heated by the package, causing damage or deterioration or evaporation of the contents.
- It can be partially shrink-wrapped for spray bottles or irregular products, and shrinkage is not easy to break.
- Use a hot blow to shrink the package in four directions for optimum shrinkage.
- Fast shrinkage to avoid quality changes caused by temperature rise of the container and contents.
- The content liquid at lower temperatures does not affect shrinkage.
- It can be operated after one minute of startup, and it runs fast, saving time and electricity.
- Suitable for bagging and shrinking film of PVC, POF, PET, OPS, etc.

### Technical Parameters

Model	Voltage	Power Output	Conveyor	kg	Blowers	Heaters
CH-4WAY	220/240V 單相 50/60Hz	10kw	L1600xW150x H720~780	105kg	TYPE CX1/4A- 0.18kw- 1PHASEX2	Four groups are adjustable (1.25kw/50~250°C) Changeable mouthpiece 75~120mm
