

BTB-300A Cellophane Overwrapper With Protect System

BTB-300A automatic transparent film packaging machine is mainly used for exterior packaging of pharmaceuticals, food, health products, cosmetics, audio and video products, and other industries which have square shape boxes items. Such as medicine boxes, chewing gum, health products, tea, sugar, condoms, rubber, mosquito coils, cigarettes, tapes, VCD (CD) discs, playing cards, transparent soaps, square batteries, floppy disks, etc., play a role in anti-counterfeiting and moisture protection. And improve product quality, increase product image and value. This machine also can be linked to cartoning machine for production line.

Features:

- Compact and reasonable structure, stable and advanced performance, easy operation and maintenance;
- The use of multi-function digital display converter, stepless speed variation;
- Convenient mold replacement in just 40 minutes;
- With automatic feeding, automatic counting and other functions;
- The transmission part is equipped with various protection devices and fault indications;
- It is install a film feeder clutch device, film could stop feeding when test machine, without wasting packing materials.

Parameter:

Model:	BTB-300A
Packaging Speed:	30-60 boxes/min
Packaging Material:	BOPP film and golden easy-tear film
Packaging Size:	L(60-240)*W(20-150)*H(10-70)mm
Machine Dimension:	2000×850×1550mm
Machine Weight:	About 900kg
Total Power supply:	4.5kw
Voltage Supply:	220V/(50Hz) or 380V
