

Powder Packaging Production Line MR8-200F

Features and Characteristics

1. Fully automatic intermittent rotary preformed bags dispensing, opening and closing machine combined with automatic auger powder filler, bulk screw feeder and product bulk hopper.
2. Safety guard protected for high speed and consistent production heavy duty components and parts are selected for machine durability
3. Hygienic construction and easy cleaning Operators' friendly design touch screen control system.
4. Adopt advanced PLC, mate with touch screen and electric control system, the man-machine interface is friendly.

Applications

Powder: Spices, monosodium glutamate, salt, glucose, refined sugar, milk powder, washing powder, pesticides fertilizers, and chemical raw materials.

Typical Flow Chart of packing machine

1. Giving bag
2. Hot Foil Coding
3. Bags Opening
4. Filling
5. Filling
6. Heat sealing
7. Heat sealing
8. Forming and output product

PRODUCT PARAMETER

Model	MR8-200F
Function	·Pouch Fill/Sealing Machine
	·Spout Pouch Packaging Machine
Capacity (PPM)	30~50bags/min(the speed depends on type of products)
Pouch Size	Width (mm):80~210
	Length (mm):100~300
Filling Volume	10-1500g(Depend on type of products)
Filling Product	Powder
Package Accuracy	Error \leq ±1
Total power	3.6KW(220V/380V,3PH,50HZ)
Demension	1460*1560*1480mm(L*W*H)
Weight	1700KGS
Compress air requirement	\geq 0.8m ³ /min supply by user
Application	Coffee powder; Milk powder; Tapioca powder; Coconut powder, Seasoning
Pouch type	
Features	8 stations; wash down; retortable
Notes	with auger powder filler/bulk screw feeder/product bulk hopper
