

Automatic Packaging Machine series JR-160C

Function:

- Adopt photocell control system; bag design can be kept well
- Triangle shape of finished product, fashionable and chic

Applications:

Suitable for packing puffed food prawn cracker, peanut, popcorn, oatmeal, roasted seeds, jelly, white sugar, salt, instant granular drink and other granular, flake and liquid food in a triangle shape bag.

Technical parameters:

| Model | JR-160C |
|---------------------------|--|
| Maximum roll width | 200mm |
| Bag length | 30-200mm |
| Width of bag | 40-100mm |
| Measuring range | 50-100ml |
| Packing speed | 30-70bags/min |
| The largest coil diameter | 300mm |
| Packaging film thickness | 0.04-0.08mm |
| Power Specifications | 220V,50/60Hz,2.4Kw |
| Packaging Materials | Composite plastic film, Such as:OPP/ CPP,OPP/CE,MST/PE/PET/PE |
| Bag form | triangle |
| Machine weight | 300kg |
