

TBJ Automatic Round and Flat Bottles Universal Labeling Machine

Specifications

1. Global aftermarket support
2. Easy to operate
3. Longer life
4. Good price

Performances and Parameter

Imported microcomputer control system Super large touch screen, easy to operate. Servo motor is adopted, and the labeling precision is enhanced when the speed is increased. The machine performance is more stable. More than 100 groups of labeling parameter memories can realize fast sample changing. The whole machine is made of high class stainless steel and aluminum alloy using anodizing treatment. It will never rust, which conforms to GMP requirements.

Technical Parameter:

Labeling speed: 36 m/min	double-sided flat paste bottle, round bottle labeling.
Label roll inner diameter	Φ76mm
Max Label roll outer diameter	Φ370mm
Power Supply	380V, 50/60HZ, 800W
Air Supply	5-8KG
Label Height	10-190mm
Dimension (L×W×H)	3000mm×1500mm×1750mm
