

JQS-1 Pneumatic Empty Capsule Loader

JQS-1 Pneumatic Empty Capsule Loader uses air power as a power source. Two-times material conveying helps avoid capsule locking or separation caused by impact or air pumping during conveying.

Features :

1. The JQS-1 pneumatic empty capsule loader adopts air amplifier as the power source.
2. Our empty capsule feeding machine is distinguished by high speed, high safety, and environmental protection.
3. Conveniently, the connection of the conveying pipeline of the empty capsule conveyor adopts quicker coupler, for easy disassembly and cleaning of the capsule loading machine.
4. Made of stainless steel, the pneumatic empty capsule loader is in compliant with GMP.
5. This empty capsule feeding unit is an ideal choice for capsule conveying.

Technical Parameters of Pneumatic Empty Capsule Loader:

Productivity	8000pcs/min
Power Supply	220V, 50Hz, 1A
Power	60W
Compressed Air Pressure	<0.5MPa
Compressed Air Flow	>180L/min
Weight	55kg
Overall Dimensions	682× 600× 1646mm
