

## Full Automatic Chocolate Packaging Machine (F-XPL600)

### Main Features:

- + We are highly acknowledged for manufacturing and supplying a substantial assortment of Full Automatic Chocolate Packaging Machine for molded chocolate bars and similar products.
- + The single lane feeding of the bars to the machine is made by means of conveyor belts which are connected with a fully automatic electronic product feed control. A continuous transport of the bars is achieved by precisely synchronized conveying speed of the feeding belts in order to avoid accumulation pressure to the delicate product.
- + Dual frequency conversion control, Bag length can be set and cut in one step, saving time and film. Temperature independent PID control, more suitable for packaging different materials. Positioned stop function, without sticking knife or wasting film.
- + Automatic fault alarm system, show the position of fault, alarm in time, and automatic stop the machine. Multi function packing, single and double layer film can be packed. Using folding type and glue stick packing. Product contact parts are made of stainless steel 304.

### Specifications:

Packing speed	50-800pcs/minute
Net weight	3300KG
Finished bag size	65mm-180mm
Outside dimensions	9685mm×1235mm×1793mm
Total power	7.85KW
Voltage	380V, 50HZ
The packing shape of product	rectangular, square, round slice, cylindrical, solid product with regular shape

Adopted product	food: chocolate, wafer, peanut candy, biscuit, crisp candy, yolk pie, and cotton candy, biscuits, toilet soap and medicine, etc.
Film	OPP, CPP, aluminum plastic film, other hot-sealing and cold sealing packing film, etc
