

Barreled Packing Production Line QGF-450

Model QGF-450 Barrel Packing Production Line is affiliated production facility especially for five gallons barrel packing production line. It is especially suitable for producing mineral water, distilled water, purified water. The machine is made of excellent stainless steel, it is erosion-proof and it is easy to wash. Main electrical appliances have applied SIMENS, OMRON product. Pneumatic circuit has applied imported AIRTACT product. It is a automatic barreled equipment with motor, electric unit and air three in one.

Technical parameters:

Rows number: __ 3 rows

Filling Heads: __ 3

Filling Volume: __ 5 Gallon

Size of Barrel: __ $\phi 276 \times 490$ mm

Capacity: __ 450 barrels per hour

Power supply: __ 380V, 50Hz, Max power consumption 2 kw+ heating 9 kw the Power consumption is only 1.75kw while the machine works as each electrical part starts intermittently

Volume of using water: __ Filling 9T/H; (hot)alkali washing 1.5T/H; Purified water washing 1.5T/H

Overall dimension(mm): __ 3700 \times 1500 \times 1600mm
