

## 16-16-6 Industrial Glass Bottle Filling Machine

The 16 heads filling machine designed by HEM Company adopts the Counter pressure filling technology which can perfectly realize the requirements of twice vacuum, CO2 injection (pressure preparation). The machine also adopts 3 in 1 compact design, easy to operate and maintain.

### Technical Parameters:

Capacity	2000BPH
Overall size	2300*1900*2500mm
Material	AISI304 stainless steel
Filling method	Isobaric filling
