

SKP-1N Rotary K Cup Coffee Capsule Filling Sealing Machine

Automatic high-speed (max 80 pcs per min.) sealing machine, from cup and filter falling powder filling, twice sealing, drop cups are automatic. Electrical and pneumatic components are all famous manufacturers of products, stable quality, long service life, it is important mechanical parts are made of advanced precision machining centers, so the machine with a good, steady work, advanced performance and reliable quality. Machine temperature control system uses a new electric thermostat controller, is a new generation of intelligent heating system, temperature control effect is good, more energy, new design, reasonable structure, beautiful, acid-resistant stainless steel material, hygienic and easy maintenance.

Technical Parameters:

Machine Parts	All the product contact parts are stainless steel AISI 304. The machine is constructed of stainless steel, anodized aluminum and plastic
Certification	CE, FDA, CSA, ISO 9001,SGS
Product Material	Ground coffee,milk,tea powder
Sealing Style	Die-cutting aluminum foil or Roll film
Production Capacity	50-80 capsules per minute
Coffee Feeding	1 Servo driven auger filler
Filling Weight	8-13g
Dosage Accuracy	±0.15g
Power	1 phase 220V 50/60HZ 2.5KW
Air Pressure	0.6Mpa-0.8Mpa
Air Consumption	0.6m ³ / minute
Weight	720Kg
Dimension	1745mmX1150mmX2850mm
Drawing	Attached below
