

## *Automatic Liquid Paste Vacuum Packing Machine DXDL-600I/DXDL-600II*

### **Application:**

- Can finish the function of auto filling, weighing, bag forming, vacuum, bag sealing, cutting and date printing.
- Widely used on food, medical and chemical industry such as: bean paste, lotus paste, fish meat paste, fruit paste, cheese, soy source, wine, mineral water etc. Non-food products' auto packing such as detergent and grease paste or semi paste.
- Packing range of this machine can be 200g-10kg, with different material conveying pump, can improve the efficiency, and avoid the bacterial pollution.

### **Specification:**

Model	DXDL-600I	DXDL-600II
Bag Width	100-250mm	100-300mm
Bag Length	150-480mm	150-600mm
Film Width	220-520mm	220-620mm
Packing Capacity	Max.6000cc	Max.10000cc
Weight	980kg	1080kg
Dimension	L1350mm*W980mm*H1980mm	L1350mm*W1080mm*H2150mm
Sealing Type	back side seal	
Voltage	380V 50Hz	
Power	4.5KW	
Air Source	0.6-0.8Mpa 0.006m <sup>3</sup> /min	
Packing Material	laminated film (NY/PE etc.)	
Packing Speed	4-10 bag/min (depends on the volume, material and environment)
