

Cone Pizza Forming Machine GG-03

Cone Pizza forming machine is specially used to make pizza cone, with consumption level pizza tube mould, can prevent mold sticking cone insulation materials, ensure the lovely modeling of cone pizza. Pizza can be adjusted according to different formula cylinder mould of lower die temperature, full automatic operation, can produce four cone. At the same time, the machine with automatic alarm device, stable quality, to guarantee trust of customers. Rotary oven can make pizza and is heated evenly, balanced flavors.

One machine can produce four cone Pizza cone, is the most ideal equipment baked Pizza, with novel design, reasonable structure, full stainless steel, strong and durable. Have all stainless steel shell combined with aluminum alloy mould, appearance is concise and easy, with consumption level pizza cone die, insulating material can prevent mould stick to cone. Our egg cylinder pizza machine is specially made pizza cone machine, has the consumption level of pizza tube mould, can prevent mold sticking cone insulation materials, ensure the lovely modelling of cone pizza.

Technical Parameters:

Model	GG-03
Dimension	530*360*1050mm
Power	2400w
Rated current	12A
Voltage	220v
Weight	43 kg
