

Multi Function Bottle / Glass Jars Powder Filler Machine DH-Q1-D160

Powder filling machine, powder filling capping machine, spices powder filling machine automatic powder filling machine, bottle powder filling machine, talcum powder filling machine powder filler, food powder filling machine, jars powder filling machine, cans powder filling machine fully automatic powder filling machine etc,

*Fully stainless steel structure, split or open-type transparent hopper, can be cleaned without special tools.

*Servo Motor & servo driver to control screw.

*PLC control & touch screen for simple operation

With weighing module offline, overcome the shortage of packing weight changing cause of material proportion change.

*Memory function with 10 sets data at most. Improve worker efficiency.

*Screw/Auger can be changed-over to suit various material & weight.

*Include hand-wheel of adjustable wheel.

Technical Parameters

Model	DH-Q1-D100	DH-Q1-D160	DH-Q1-DSJ
Dosing Method	Dosing by auger	Dosing by auger	Online weighing & Cans lifting
Packing weight	1-500g	10-5000g	100g-10kg
Accuracy	≤100g, ≤±2%. 100-500g, ≤±1%	≤500g, ≤±1%. ≥500g, ≤±0.5%	≤1kg, ≤±2g ≥1kg, ≤±0.2%
Filling Speed	15-40 BPM	15-40 BPM	5-12 BPM
Power	3P AC208-415V 50/60HZ , 1.2kw	3P AC208-415V 50/60HZ , 1.6kw	3P AC208-415V 50/60HZ , 3.2kw
Air-supply	0.05m ³ /min		
Total weight	160kg	300kg	450kg
Overall Size	1500*760*1850mm	2000*970*2030mm	3000*970*2300mm
Hopper Volume	25L (35L Optional)	50L (70L Optional)	56L
Suit Material	Condiment, Spices, cosmetic, coffee powder, solid drink, drugs, dextrose, powder additive, talcum powder, pesticide, dyestuff etc
