

Semi-Automatic Small Desktop Capping Machine CM-TCM

Features:

- Electrical control movement, positioning control, easy operation.
- Wide range of lock caps, which can lock caps of different shapes and specifications.
- The torque force is adjustable to effectively protect the bottle cap from damage, and the tightness can be adjusted according to different bottle caps.
- It is suitable for the lock cover of cosmetics, drugs, drinks and other bottles.

Technical Parameters:

- Voltage: AC220V 50/60Hz;
- Power: 80W;
- Dimensions: 60*75*80 cm;
- Weight: 44kg;
- Air source requirements: 0.4~0.6MPa;
- Applicable bottle range: bottle height 50~300mm, cap diameter: 20~50mm;
- Screw cap torque: standard value 4~8kg/cm.
