

CF-40T Case Erectors

This CF-40T automatic case former machine has been designed to automatically form, fold, and bottom seal RSC corrugated cases. The CF-40T easily folds a variety of corrugated cases - from double wall to recycled material, and can form up to 40 cases per minute.

The full-automatic case former with its heavy duty steel construction is designed to endure the most rigorous industrial environments. The CF-40T auto carton former requires minimal operator training; decreasing your operating costs, while improved tool-less changeover features make it easier than ever to switch from one box size to another.

Technical Parameters

Model	CF-40T
Power supply	380V \pm 10%/50Hz /2.5KW(Three-phase four-wire system)
Air pressure	4-6kg/cm ²
Working speed	40cases/min
Case Size	Custom-made
Sealing specification	Custom-made
Sealing type	Kraft paper or BOPP tape
Electric adoptions	Adopt TAIWAN "CPG" or "ONG LI" motor
Worktable height	1000-1100mm
Outside dimension	L4150 x W1530 x H2000mm
Transport packing size	L4250 x W1630 x H2100mm(14.55m ³)
Machine weight	650kg
