

YS-98B Special-Shaped Bag Packing Machine

YS-98B Special-shaped bag packing machine is a continuous motion vertical machine designed for Special-shaped bag at high speeds. Continuous pull film movement, Simple structure, Economical and practical. Continuous motion leads to high productivity Lean machine concept enables cost-effective production. Maintenance-free servo-technology ensures reliable production PLC controls enable precise machine movements for smooth production and good bag quality Intuitive HMI allows easy operation and short training time. Open machine concept for easy access and maintenance. Compact machine design for good ergonomics, product-conserving filling and saving space

Technical Parameters

Model	YS-98B
Bag type	1. Three side sealing 2.Back sealing
Standard capacity	10-60 bags/min
Size of bag	Width : 20-60mm
	Length:30-180mm
Measuring Scope	1-20g
Packaging material	PE composite film
Total power	5.5KW
Gas source	0.3m / min
Outer dimensions (appr .)	930*1500*2400 mm
Weight (appr .)	720kg
Power supply (optional)	220V /50Hz
