

CFQ-300 Tablet Deduster

CFQ-300 tablet deduster is developed to remove all the dust and static powder on the tablets made through high-speed tableting machines. It is designed to form a complete set with high-speed medicinal tablet press machines and it can be used together with all types of tablet press machines.

It may also be used as an outlet equipment for various tablet, lump and granule products needing automatic dust-cleaning. It boasts such advantages as high outlet, high dust-removing efficiency, low noise and easy maintenance. The best effect may be obtained while it is used in corporation with dust-cleaning or dust-blowing apparatus.

It may be widely used in medical, pharmaceutical, chemical industries and food-producing trade.

Features:

- Double layers screen structure, separating tablet & powder.
- V-shape design for the powder-screening disk, polished efficiently.
- Speed and amplitude adjustable.
- Easily operating and maintaining.
- Operating reliably and low noise.

Technical Parameters

Capacity	0-550000 pcs/hour
Power	~220V 50HZ
Dimension	(Φ315mm~Φ350mm~) × (900mm~1070)
Weight	38kg
Vacuum	1.8m ³ /min-0.01MPa
Compressed air	0.1m ³ /min-0.05MPa
