

## *SD-F Powder Packing Machine*

This powder packing machine is mainly used in the automatic soft-bag packaging of powder materials in fields of food, pharmacy, chemicals, etc.

Its appropriate packing materials are various heat-sealable composite packaging materials, like paper, polyethylene, glass paper, BOPP films, and more.

### **Features:**

1. This powder packing machine can automatically finish the work of bag making, metering, filling, cutting, counting, and batch number printing.
2. It is designed with photoelectric follow-up system and computer control system. The computer control system has functions of accurate tracking, easy bag-length setting, automatic alarming, packing-number displaying, and high-speed packaging.
3. High-speed printer is designed to automatically print the batch number, storage life, and the like.

### **Technical Parameters**

Type	SD-180F	SD-188F	SD-688F
Sealing mode	3 side	Pillow type	Pillow type
Packaging speed	20-60 bags/min	20-60 bags/min	20-50 bags/min
Bag size	L: 80-180mm	L: 80-260mm	L: 100-310mm
	W: 50-140mm	W: 40-150mm	W: 70-210mm
Filling quantity	10-300ml	50-300ml	200-800ml
Machine weight	300kg	300kg	350kg
Machine dimension	1000×800×2000	1100×800×1900	1200×900×2000
Power	1.5KW 220V 50HZ
