

UT0AFG7 Coffee Powder Can Sealer With Nitrogen Automatic Vacuum Tin Can Sealer

Coffee Powder Can Sealer With Nitrogen Automatic Vacuum Tin Can Sealer is applicable for Suitable for metal cans, aluminum cans, tin cans seaming, best for tuna, sardines, ham, milk powder, coffee powder storage, it is an essential ideal equipment for the food, beverage, pharmaceutical, chemical industries etc.

Features:

- 1) Mitsubishi PLC system, Airtac pneumatic controller, 7" Touch screen are consist of the control system.
- 2) Transparent vacuum chamber for you clearly control the machine during sealing process.
- 3) This machine work setting:
 - cans sealing only;
 - vacuuming+cans sealing;
 - vacuuming+nitrogen gas filling+cans sealing
- 4) Easy operation: Press 2 green launch button for starting sealing process and red stop button for suspending.
- 5) Safety: Press emergency button will stop all the process at once.

Application:

It is an essential ideal equipment for the food, beverage, pharmaceutical, chemical industries etc.

Suitable for metal cans, aluminum cans, tin cans seaming, best for tuna, sardines, ham, milk powder, coffee powder storage.

Technical Parameters

Material	Stainless Steel
Sealing head number	1
Sealing Speed	6-10 cans/ min
Sealing Height	50-180mm (Adjustable)
Applicable can diameter	50-100mm (Adjustable)
Air source	0.6-0.8MPa
Power	4KW
Weight	350Kg
Size	2000(L)*1800(W)*1850(H)mm
