

ZH-300/400 High Speed Cartoning Machine

This machine is a fully automatic continuous high-speed boxing machine, which integrates machine, light, electricity, and gas into a high-performance product. It is suitable for automatic boxing of aluminum-plastic blister panels, bottles, hoses, soft double aluminum, and bag shaped items, and can be matched with it to form a packaging production line.

Features:

- No product, no instruction manual, no paper box;
- When there is no product or the product supply is insufficient, the machine will idle without pushing the product. When the product supply is restored, it will automatically run. If the product is not in place, it will automatically stop;
- Automatic shutdown without paper box, automatic shutdown without instruction manual for multiple consecutive times;
- Compressed air and vacuum negative pressure too low shutdown alarm;
- The rear feeding mechanism can leave more space on the front of the machine, making it more convenient and user-friendly for operators to operate and maintain the machine;

Parameters

Maximum production capacity	300/400 cartons/min
Carton size range	Max. 150x80x50mm, Min. 80x35x15mm
Leaflet range	100-250mmx100-170mm(LXW) Min.folding width 15mm
Power supply	245x112mm 380V 50Hz 3-phase 4-wire
Main motor power	2.2KW
Air consumption	0.06-0.09m ³ /min(Pressure 0.6-0.9Mpa)
Overall dimension	5100x1700x1800mm(LxWxH)
Machine weight	About 3200kg
Noise	≥0.25m ³ /min <80dB
