SH-XG441F Automatic 20L Plastic Jerry Cans Motor Oil Antifreezing Solution Bottle Capping Machine With Cap Elevator

Main Feature

- ▶ Designed for plastic jerry can with handle, capping structure can access bottle opening mouth accurately
- ▶ With cap elevator to supply caps in time
- ▶ Servo motor capper, capping torsion can be adjusted
- ▶ PLC touch screen control panel, makes machine setting more intuitively

Parameter

- Machine voltage: 110/220V 50-60HZ 2KW
- Suitable cap size: 30-120mm(Can be customized)
- Suitable bottle height: Customized
- Air pressure: 0.7MPa
- Working capacity: 5-15BPM
- Machine size: About 4020x1940x2340 mm
- Machine weight: About 350kg
