

SED-118SP-F PLC Control Automatic Liquid Ampoule Filling Machine

This machine is a compact liquid filling and sealing machine, suitable for small batch filling of different varieties.

Products are widely used in filling oral liquid, perfume, liquid, essential oil, olive oil, health care products, etc.

Pharmaceutical, herbal, pesticide, cosmetic, food and supplement fields.

Feature

- 1) PLC control, steeples frequency conversion adjustment.
- 2) Paper, plastic molding, filling, batch number, cut the tail, cutting, etc. 7 location by the program automatically.
- 3) Man-machine interface device, the operation is simple and clear.
- 4) Filling head does not drip, no bubble, no overflow.
- 5) And related parts in contact with the liquid are all made of high quality stainless steel material, conform to GMP standard.
- 6) Main pneumatic components, electrical appliances imported accessories.
- 7) Electronic peristaltic pump control filling system and mechanical filling two kinds, accurate measurement error is small.

Product Parameters

Maximum depth forming:	12 mm
Capacity:	100 bottles / min
Filling head:	Five filling head filling
Packaging materials:	PVC/PE (0.2 0.4) x 120 mm
The filling capacity:	1-50 ml/branch
Total power:	6.0 kw
voltage:	Three-phase 220 v / 60 hz (three-phase 380 v / 50 hz)
Weight (kg):	850 kg
Overall dimensions (length x width x height):	2300 x 850 x 14
