

GRT-series Semi-Automatic Particle Weighing Packaging Machine

Applicable for quantitative weighing packaging of powder and particles material.

Such as: pesticides, feed, additives, washing powder, salt, monosodium glutamate, sugar, seeds, rice, nuts, pepper etc.

Features:

1. Electronic scale measurement, accurate loading
2. The microcomputer control, reliable use
3. Double vibration feeding, high effect
4. Stainless steel structure
5. Artificial bagging, photoelectric sensor, automatic measurement
