

Single punch tablet press YDP-12

Developed through the absorption of the international advanced technologies, this tablet press is applicable to industries such as pharmaceutical, chemical, electric and foodstuff for pressing the powder or granular materials into tablets automatically in a continuous way.

It features advantages such as low waste of material, reasonable structure, easy operation, compact size. large compression, low noise, small deviation of weight, with the filling depth and thickness for the tablet continuously adjustable and all functionality indicators reaching the level the similar imported machines.

Features:

1. High precision of filling, low noise, low consumption of material, and it works smoothly.
2. The minimum consumption of lab material is just 200 g.
3. It is a good machine designed for the lab used for research and for development in hospital and industry and for small scale production.

Technical Parameters:

Model	YDP-12
Max. pressure (kn)	40
Max. diameter of tablet (mm)	12
Max. depth of fill (mm)	15
Max. thickness of tablet (mm)	6
Production capacity (pc/h)	3600
Motor	1.1KW,1400r/min
Overall size (mm)	450x550x750
Net weight (kg)	75 kg
