

Automatic Auger-Type Filling and Packaging Machine JS-16A

Product Features:

- This model is Auger filling with servo motor control.
 - This model produces 3 side sealing, 4 side sealing and pillow type packaging. One machine has one sealing type.
 - This model is excellent for packing non-free flowing or difficult flowing powder.
 - The auger is one piece manufactured from stainless steel with high filling accuracy.
 - The sealing temperature employs a PID system temperature controller.
 - Multiple memory programs for various packaging products.
 - Equipped with photo-cell device to ensure extremely accurate bag forming, sealing and cutting.
 - Packaging speed & sizes are adjustable during operation.
 - The entire procedure from, weighing, bag forming, filling and sealing to cutting and packaging is fully automatically operated.
 - All components in direct contact with packing product are made of stainless steel, conforming to sanitation standards.
 - Auger Type Filling for 50g~1000g is available on request.
 - Equips with touchable screen for convenient usage.
-
- Applicable packing products: Non-free flowing powder. Precise packaging requirements. Health food powder, milk powder, coffee powder, Chinese herb powder, chemical powder.
 - Applicable packing materials: PET+PE+Aluminum foil+PE, OPP+PE, other laminated heatsealable materials.

- Standard Equipment: 1. toolbox containing necessary tools and 2 cutting knives. 2. Round heaters and 2 tube heaters.
- Optional Equipment: Quantity warning device, Date coder device, Easy opening device. Input conveyor. Output conveyor

Specifications:

Packaging type (One option only)	3 side sealing, 4 side sealing, pillow type packaging
Packaging weight	10-50gm(varies with product density)
Packaging size	Film width (W)40-160mm or 80-240mm
	Bag length (L)50-110mm or 70-180mm (Other size are available upon request)
Packaging speed	About 20~60 bags/min
Main Motor	1/4HP
Servomotor	0.5kw
Power supply	power supply: 220V, 50/60Hz, 3 phase (can be made upon request)
Machine dimensions	120 x 100 x 180 cm (Approximately)
Packing dimensions	140 x 120 x 200 cm (Approximately)
Net weight	350kgs
Gross weight	470kgs
