

J900A Automatic Intelligent Horizontal Sticker Labeling Machine

The machine are adopted horizontal label method, installed the automatic deliver bottles equipment and roller chain delivering belt. It can finish putting, delivering and labeling bottles at a time. It also installs the rolling and labeling equipment to effect circle labeling or half-circle labeling. It is special used for the oral bottles, injection bottles, battery, sausage, and pen, solid gum which cannot stand or cannot stand steadily. Apply to conical containers labeling.

Main Character:

- It can use the label which is made by Chinese material, it reduces many label cost.
- Adopted the importing spongy belt to reduce the damage of the bottles;
- It can save 8 kinds of labeling information, it doesn't
- Need to debug and move the magic eye again when you change the labeling containers;
- The touching display, stimulant capacity adjustment and
- It has easy mechanical adjustment, need not the professional technical worker to operate;
- Have the function of counting;
- Adopt import electric components.
- Adopt 304 stainless steel and alloy which is dialed with anodic oxidation except the shelf.

Technical parameters:

- 1) Object to Apply: columnar container cannot stand steadily
- 2) Container Range (mm): Ø10—Ø25, Height 20-80 or Ø18—Ø38 Height: 20—120
- 3) Label Range (mm): Length 10-80 Height: 15-80 or Length 15-120 Height: 10-120
- 4) Label Speed (It bears on the size of the container and label) (pc / min): 0-500
- 5) Label Precision (mm): ± 0.5
- 6) Power: 220V 50/60HZ 0.28KW
- 7) Weight (kg): 210
- 8) Measurement (mm)(Length*Width*Height): 2000*1500*1500

We can customize your order if you have special demands.
