

Automatic Granule Filling Sealing Powder Stick Coffee Packaging Machine SJIII-K100/300

The machine is composed by feeding barrel, rotary measuring cup feeding equipment, thin film supply equipment, thin film molding machine vertical heat sealing equipment, horizontal heat sealing cutting equipment electric-control part, machine body part equipment ect. All the parts that contact with packing material is (304)stainless steel

Feature:

Automatic granule packing machine is mainly used packing different kinds of coarse powder, granule material side sealing flat bag or pillow bag filling and packing. Specific materials that can be packed: all kinds of soup powder, seasoning, Chinese patent medicine, coffee, soybean, salt, melon seeds. tea, etc.

Parameters:

Model	SJIII-K100	SJIII-K300
Capacity(bag/min)	40-70	30-70
Packing Range(ml)	5-100	50-500
Power	1.4KW	1.6KW
Air consumption	0.8Mpa/100L	0.8Mpa/150L
Length of bag(mm)	150	300
Widht of bag(mm)	120	190
Dimension (m3)	0.8*1*1.8	1*1.2*2.2
Weight(kg)	300	480
