

## Granule Packing Machine XY-60AK

This machine is mainly used for packaging granular products: such as sugar, salt, coffee, MSG, seasoning, beans, peanuts, sunflower seeds, grains, nuts, cereals, tea, herbs, washing powder, desiccants, etc.

### Technical Feature:

1. Material conveying, measuring, filling, bag-making, date-printing, finished product outputting are all completed automatically.
2. High measuring accuracy and efficiency.
3. Packing efficiency will be high with vertical packing machine and easy to operate.

### Technical data:

1. Machine model: XY-60AK
2. Formed bag size: W: 30-140mm, L: 30-180mm
3. Filling Range: 3-150g
4. Packing speed: 30-60 bags/min
5. Sealing form: 3 sides sealing ( 4 sides, back sides sealing options)
6. Voltage: 220V 50Hz ( can be customized)
7. Total power: 1.9KW
8. Functions: Filling, Bag making, Sealing, Cutting, Coding ( optional)..
9. Machine weight: 400 kgs
10. Machine size: 900\*700\*1700mm ( L\*W\*H)
