

High Precision Electronic Counting Machine RQ-DSL-16

RQ-DSL-16 Automatic electronic counting machine is suitable for 3-25 mm tablets, pills, #000-#5 capsules and etc. After feeding the material, using the device to close from the bottom to the top, can effectively avoid the damage to capsules or tablets. This 16 channel counting machine adopts tempered glass window, can check the machine's blanking process, if there is a fault, can adjust it in time.

Technical Parameters:

Technical parameter

Model	RQ-DSL-16
Patent:flip board structure	The top and bottom closed design obtains the national new patent, does not damage the material when working
High power photoelectric detection device	Adopting electronic counting technology of high dust resistance, still running normally in high dust environment, accuracy rate > 99.5%
Capacity	10-40bottles/min
Applicable target	#00-5 capsule, soft capsule, Ø 5.5-20 tablet,sugarcoated tablet and Ø3-20 pill
Applicable bottle type	10-500ml round, square bottle
accuracy rate	>99.5%
Main material	contact with the material all use 316 stainless steel material.
Voltage	380/220V 50Hz
Power	1.2kW
Weight	380kg
Outline dim.	1360×1650×1650(mm)
Packing/size	Standard export wooden case/1450×1750×1600mm
Warranty	1 year
Method of Warranty	Remote telephone and video guidance or home service according to customer requirements
Time of delivery	Shipped in 20 days after payment
Payment term	L/C,T/T,Western Union
Port of loading	Guangzhou or Shanghai
