

## NF-100 Cream Soft Tube Filling Sealing Machine

This machine is a high-tech product which successfully developed and designed by adopting advanced technology from abroad and strictly meet GMP requirement. PLC controller and color touch screen are applied and made it possible for programmable control of the machine.

It can perform the filling for ointment, cream jellies or viscosity material, tail folding, batch number embossing (include manufacture date) automatically. It's ideal equipment for lead tube, ALU tube, plastic tube and laminated tube filling and sealing for cosmetic, pharmacy, foodstuff and bond industries.
