

2 in 1 Shrink Packing Machine LK-5540

Widely used in packaging such as glass bottles, plastic foam, paper boxes, toys, electronics, electrical appliances, stationery, books, music, hardware tools, daily necessities, medicine, cosmetics, beverage, fruit, label items s. The heat wrapped products would be much better good looking and more attractive, and good for displaying. Besides it's moisture proof, dust free, also it enable prevent pollution, and protect the goods from external shocks, especially for fragile goods. In addition, can reduce product are demolished, and the possibility of theft.

Features:

1. Sealing and shrinking at one step.
2. Sealing with high temperature glass fiber blade slot, anti-stick Teflon coated aluminum heat sealing knife, not mucosa sealing, cut neatly, no cracking, no coke.
3. 400 °C high temperature resistant transparent glass, durable, and easy to observe the entire process of sealing, contraction, so as to adjust the sealing time, temperature and contraction time cooperate to achieve the best effect of packaging.
4. Advanced drilling equipment, smooth and beautiful, the membrane can be fully discharged air to ensure a smooth contraction, beautiful.
5. The working table can be adjusted according to the level of packaging size, easy to operate.
6. Lockable casters designed to facilitate the movement and positioning equipment.

Parameters:

Model	LK-5540
Power supply	AC220V
Power	2.5KW
Running speed	500-800times/H
Max. shrinking size	550*420*300mm
Machine size	1450*700*1140mm
Weight	120kgs
