

BLP Automatic Bottle Unscrambler

This machine is suitable to unscramble general round and flat plastic bottle, such as eye drop bottle, syrup bottle etc. And other bottle type can be customized in this machine system. It is able to unscramble disorder bottle to stand right side onto the conveyor. All contact parts is made of SS304, accordance with GMP regulation.

Main technical parameter:

1. Applied to: round, flat and other irregular shape.
2. Suit to bottle size: ϕ 20—40mm
3. Production capacity: 2400-6000 bottles/h (according to bottle size)
4. Yield of arranging: $\geq 99\%$
5. Power supply: 220v 50/60Hz
6. Power consumption: 0.5KW
7. Air consumption: 0.3M³/min 0.3~0.5Mpa
8. Net weight: approx. 300kg
9. Overall dimension: L*W*H= 900*900*1200 (mm)

Characteristic:

- Instead of hand work, saving labor and sanitary.
- Advanced design, compact structure, and low power cost.
- High effective of bottle unscrambling, applicable in various small bottle type and size.
- Frequency conversion speed control, auto run/stop in kit line.
- The whole machine is designed according to the GMP regulation.
